COURSE SYLLABUS

PART 2 of 3

Course Number and Title	AH132 Advanced Medical Terminology
-------------------------	------------------------------------

Credit Hours	3
--------------	---

Course Description	This course provides students with an advanced level of medical terminology. The course uses a systems-based approach that provides students with the skills and knowledge necessary to derive meaning from common medical terms. Students will deconstruct medical word construction and language, as well as the derivation, roots, prefixes, and suffixes. Various structures and organization of bodily systems will also be examined.
