

### **General Studies Mission Statement**

The mission of the Southern West Virginia Community and Technical College General I Studies Program is to provide access to quality general education studies while the student is determining a field of study.

### **Technical Studies Certificate Program Outcomes**

#### **The student will:**

1. Develop college-level writing skills across content areas.
2. Solve real-world math problems using fundamental math and algebra concepts.
3. Explain how fundamental biological principles impact everyday living.
4. Apply high-level inquiry and problem-solving skills to analyze human behavior and systems.
5. Explain differing perspectives on culture's diversity, ethics, and inclusion.
6. Communicate effectively in technological, written, and verbal in an academic setting.
