

Instructional Programs

Industrial Safety Technician

Skill Set

12 Credit Hours

Purpose

The Industrial Safety Technician Skill Set is designed to prepare students for immediate employment in the Industrial/Manufacturing Safety field with specialized training in several in-demand concentrations such as: OSHA Regulations, Industrial Safety Risk Management, Industrial Ergonomics, and Industrial Hygiene. Each course is designed to offer students the planning, analysis, and decision-making techniques needed to increase employment.

The full Industrial Safety Technician Skill Set is available online. Some courses may be offered at Campus locations. Check schedule for offerings.
