Quantitative Literacy and Rivency Intercultural Compensatory Program Learning Outcomes 1. Describe professional ethics required in the medical coding field. 2. Lilustrate knowledge of medical terminology, anatomy and physiology and pathologies of all the body systems when assigning diagnosis and procedure codes. 3. Accurately assign ICD-10-CMP-CS, CPT and HCP-CS codes for diagnoses and procedures across all patient care bypes. 4. Apply the Official Coding Sudderines and Corrections when assigning diagnosis and procedure codes to a latient care bypes. 5. Differentiate healthcare payment systems, their functions, and their impact on healthcare reimbursement.							l/R				H	_		_			_																
Program Learning Outcomes 1. Describe professional ethics required in the medical coding field. 2. Illustrate knowledge of medical tending grant pathologies of all the body systems when assigning diagnosis and procedure codes. 3. Accurately assign CD-10-CMPCS, CPT and HCPCS codes for diagnoses and procedure codes all patient and the impact of all patient spatients. 4. Apply the Official Coding Guidelines and Corometions when assigning diagnosis and procedure codes. 5. Differentiate healthcare payment systems, their functions, and their impact on healthcare reimbursement. Legend Leg			I/R	l/R			,,,,				П	R			i		i i
