

Medical Laboratory Technology Program

The Medical Laboratory Technology program at Southern West Virginia Community and Technical College exists to provide competent qualified medical laboratory technicians for healthcare agencies located in the college service area and beyond. The program emphasizes student-oriented, transferable learning, enabling students to achieve work, career, and personal success. The program provides a high-quality, affordable, and accessible education. The program is flexible in responding to state and community demands for highly skilled providers of health care.

MLT Program Outcomes

Graduates of the program will:

1. Demonstrate the skills and knowledge necessary to enter hospitals and other healthcare settings as Medical Laboratory Technicians.
2. Conduct themselves professionally and ethically.
3. Communicate effectively with patients, families, colleagues, and other members of the health care team both verbally and through writing.
4. Pass a national certification examination. (Program Goals)
5. Will be employed in the field within 3 months of graduation or continuing their education in medical technology or their field of choice. (Program Goals)
