

Technical Studies

The Associate in Applied Science in Technical Studies is designed to provide for cooperatively sponsored educational opportunities for employees participating in quality education and training programs sponsored by businesses, industry, labor, or government. Required components in the program include general education and classroom instruction in a technical core and in the occupational area. College credit may be awarded for on-the-job training and/or supervised work-based learning.

Technical Studies Program Outcomes

1. Demonstrate the ability to think critically and creatively.
2. Identify and apply analytical reasoning across academic disciplines.
3. Demonstrate the specialized training and experience derived from the student's professional and technical coursework.
4. Recognize and relate to literature and the arts, diversity, historical viewpoints, and global perspectives.
